

## Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, Oct. 16.—Eventually the week-end, or more likely, the absence of untoward developments, contributed to the confident tone displayed by today's market, which was characterized by unusual breadth.

Prices opened at substantial gains in many leading issues, these being forfeited in part during the mid-session, but in the final hour the most active of the day, fresh buying under lead of United States Steel, Mercantile Mariner, coppers and equipments, forced quotations to higher levels and served further to efface the more serious reversals of the preceding week. Several new records were scored, Norfolk and Western rising 2%, General Motors 2 1/2% to 77 1/2% and four for Atlantic, Gulf and West Indies to 97.

Much of the belated advance was made at the expense of a stubborn short interest, which had registered its opposition to bullish revival by persistent pressure upon Steel and other leaders. Total transactions were slightly in excess of 1,000,000 shares, the last hour supplying over one-third of the whole and steel, which made an extreme gain of 4 1/2 points, furnishing about 20 percent. Bethlehem Steel made an advance of 15 with two to five points in other industrial equipments and munitions.

Bonds were strong. Total sales par value, \$5,370,000. U. S. bonds were unchanged on call.

### METAL MARKET

NEW YORK, Oct. 16.—Lead 7 at 7.10. Spelter dull; spot East St. Louis delivery 9 1/2. Copper firm electrolytic first quarter 27.25 at 28. Bar silver 68 1/2.

### CHICAGO GRAIN.

CHICAGO, Oct. 16.—Bullish foreign conditions, including a decided falling off in world shipments made wheat higher today, although a liberal increase of the U. S. visible supply total was unsettled at 1/4 to 1/2 net advance with December and May both at 1.57 1/2. Corn finished quarter at 1/4 down and oats off 1/4 to 1/2. Provisions scored gains of five to 5 1/2.

World shipments of wheat showed a decrease of 21,000,000 bushels. Besides, reports from Argentina told of a continuance of the drought and referred to uninterrupted enlargement of crop damage there.

Corn was depressed by selling from speculators who at the same time were buying oats and who contended that despite big stocks of oats were at topheavy discounts. The visible supply of the United States, however, seemed in the end more than the oats market could stand.

With abundant foreign business in sight the provision trade ignored lower quotations on hogs.

(By L. J. Overlock)

BOSTON, Oct. 16.—Market opened fractionally higher and advanced continually throughout the session closing at the best of the day with net gains of 2 to 6 points. Lack of unfavorable developments over Sunday brought about a pronounced change of sentiment. Shorts covered freely and new long lines were put out. Indications point to a higher opening tomorrow. U. S. Steel and Crucible Steel were the leading features in point of strength and activity. Copper shares under leadership of Anaconda and Inspiration displayed improvement. As a whole we feel that some profit should be taken on any further material advance.

PAINE, WEBBER &amp; Co.

## NO INDIGESTION, GAS, OR STOMACH MISERY IN FIVE MINUTES

### "Pape's Diapiesin" for sour acid stomach, heartburn, dyspepsia.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapiesin will save them from any stomach misery.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread or rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known. ## IRRIGATION NEEDS VOICED BY EXPORTS

### More Money Needed or Many Enterprises Must Cease, Declares A. P. Davis.

EL PASO, Oct. 16.—The faults of the national reclamation act of 1902 were not due to ignorance but were the result of compromises of the "pork barrel sentiment," Arthur P. Davis, director and chief engineer of the reclamation service, told the delegates to the irrigation congress this afternoon. He said the irrigation congress had constituted one of the strongest influences that finally led to the passage of the national reclamation act which he characterized as the most constructive piece of legislation passed within a generation.

He characterized the influence of this "pork barrel" policy on the farm unit plan as insidious and one which allowed the farm unit to be left so large that it became a handicap to the farmer in making payments and needed improvements. He said the reclamation service would be unable to take up, for some years, new projects unless the reclamation fund can be replenished or other means of financing these projects be devised.

A. S. Dawson, chief engineer of the department of national resources of the Canadian Pacific Railway, spoke on "the development of the irrigated farm," and urged the cooperation of the farmers in development, distribution and marketing.

Dr. R. B. von Kleinsmid, president of the University of Arizona, followed him with an address on "irrigation and education."

Neil Neilson, Australian trade commissioner to the United States, made the closing address of the afternoon session.

In place of Governor W. C. McDonald of New Mexico, who was unable to attend, the Mexican band which was sent to the irrigation congress by the Mexican government played "the American and Mexican national airs while the crowd stood."

In the evening session a debate was held on the question as to whether irrigation had been developed as a governmental or private enterprise. Will R. King, chief counsel for the United States Reclamation Service, advocated government ownership, while Judge Carroll B. Graves of Seattle argued that private exploitation would give better results.

William B. Smythe of San Francisco, known as the "father" of the congress, proposed that a temple be erected as a memorial to the work of the irrigation pioneers.

### MUDGE IS TO REMAIN

#### HEAD OF RIO GRANDE RY

DENVER, Oct. 16.—On the eve of the annual stockholders' meeting of the Denver and Rio Grande Railroad here tomorrow a statement was issued tonight by E. T. Jeffery, chairman of the board of directors saying that there would be no change in policy of the road. Mr. Jeffery said H. U. Mudge, president, would be reelected. Among the officials here for the meeting besides Mr. Jeffery are Kingdon Gould, vice president; Arthur Coppel, director; Benjamin C. McAlpin, director and J. P. Howland, secretary and director.

## Have a Clear Complexion and Clean Skin

There is one sure, safe way to avoid a blotchy, pimply skin. A good or bad complexion comes from within. If you want a clear complexion, a clean skin—rosy cheeks and good health, your blood must be pure and the poisonous matter must be carried off.

### Dr. Edwards' Olive Tablets

assist nature to remove all poisonous waste matter in the system. They act on the liver and bowels like calomel yet have no dangerous after-effects. They are reliable—safe and cannot harm—are used by women folks everywhere.

Constipation is nearly always the cause of all ailments of women. The intestines must be made to do their work as nature intended—in a normal way.

Have color in your cheeks. Take one or two tablets nightly and note the pleasing results. All druggists—10c and 25c.

### FEDERAL FARM BANKS

#### HARD TO LAND

WASHINGTON, Oct. 16.—Attempts of promoters in the west to make personal profit out of the organization of joint stock land banks under the federal farm loan bank system, resulted today in a suggestion to the department of justice by the farm loan board that federal prosecutions be brought against such promoters. The board has ruled that no charter shall be granted a joint stock bank which any commission has paid for its promotion.

Members of the board explained that attempts to promote organization of banks for commissions has become a scandal in the west and that the government should use every effort to suppress these operations.

## IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications. (Advertisement)

## Arizona Ray Copper Company

After the meeting Saturday one of the Company's largest stockholders, who verifies every statement made about this property, said: "I heartily recommend the purchase of this stock, now listed on the San Francisco Stock Exchange."

This company is operating one churn drill, with another heavy churn drill ordered, and their engineer, Edmund L. Hiatt, formerly Chief Engineer for six years of the Ray Consolidated, makes the statement that he believes he will strike the main ore body on fifteen days' churn drilling.

Buy at the market.  
Out of town customers should wire their orders at 27c to 28c.
